JJP Medical PropCo

PHASE · Income Asset

UNDER REVIEW

Commercial Medical Property · Leased to MediFrail

CONTEXT

One commercial building, no bond. ~R30,000/month rental (annually escalating) — a primary JJP Invest income source. Loss of this stream would have a meaningful impact on portfolio cash position.

TENANT TRANSITION · MEDIFRAIL

Concerns Raised by Wynand Bothma

- Lease terms and rental considered unaffordable
- Independent valuation returned ~R1.7m
- Property lacks formal frail-care use rights
- Dissatisfaction with invoicing accuracy & response time

Q2 STRATEGIC OPTIONS

01	**Renegotiate Rent**	*Restructure to sustainable level — retain income with reset terms.*
02	**Sell the Property**	*Realise capital — redeploy in development pipeline.*
03	**Repurpose for Alt. Use**	*Convert to use aligned with rights & demand.*

Q2 PRIORITY ACTIONS

Commission independent valuation · Update invoicing to Nedbank · Address communication concerns with Weinand · Strategic decision within Q2 2026

JJP Residential

Two Residential Apartments · Currently Tenanted

PHASE · Income · Hold/Review

TENANTED

OVERVIEW

Two small apartments, both currently tenanted at below-market rates that cover rates, taxes and levies — no net income contribution.

Unit 1 — Mavis

RETAIN

Retained charitable arrangement

Hansie has indicated this property should not be sold. Long-term position confirmed.

Unit 2 — Charles

UNDER REVIEW

Site security manager

Rental covers holding costs only. Sale under consideration — valuation in Q2.

Q2 2026 PLAN

Transition invoicing & payments from FNB to AAA Invest Nedbank account · Obtain valuations for both units · Determine whether Unit 2 should be listed

Brooks Varsity Lodge

Three Stands · Brooklyn, Pretoria · Adjacent to Doxodaro Church

PHASE · Repositioning

DIRECTION REQUIRED

CONTEXT

Three stands to be consolidated. Doxa Deo Church holds three adjacent stands and must also consolidate. Development direction remains undefined — historical concepts have ranged from student accommodation to a boutique hotel.

MONTHLY HOLDING COST

R33,000

Includes 50% of Doxodaro's water & electricity. No income from the property currently.

Q1 DEVELOPMENTS

Doxa Deo Engagement

Ongoing discussions on access, servitudes and municipal requirements.

Municipality Servitude

Request for temporary road through our stands declined; existing entrance remains correct.

Drainage Invoice Dispute

Doxodaro repaired blocked drain unilaterally; invoice for shared costs disputed.

URGENT BOARD DECISION · Confirm strategic direction: student accommodation vs. boutique hotel vs. sell — holding costs continue to accrue.

Riviera Revamp

PHASE · Mobilisation

FUNDING REQUIRED

Student Accommodation · Phased Refurbishment & Conversion

OVERVIEW

Phased refurbishment underway. Proposal recalibrated (Blake's earlier figures corrected). Detailed phased layout in compilation; quotations being sourced for bunk beds, garage conversion and entertainment area improvements.

PHASE 01 — Immediately

Urgent Maintenance

Structural and cosmetic repairs. No delay acceptable — must commence as a priority.

PHASE 02 — Before student move-out

Exterior & Conversions

Exterior repaint; garage conversions; entertainment area upgrade. Must complete before tenants vacate.

PHASE 03 — Nov / Dec 2026

Interior Revamp

Executed during the move-out window. New unit configurations to be supplied to Nesvas for next-cycle marketing.

TIMELINE CONSTRAINT — Phases 1 & 2 must complete before student move-out to execute Phase 3 within the two-month window.

Greens Boutique Estate

George, Western Cape · 38-Stand Residential Development

PHASE · Pre-execution

ADVANCING

Financial Position, Risk & Q2 Plan

Capital sequencing depends on the entrance-road conclusion and services-installation funding pace.

PROJECT CAPACITY	SERVICES TIMELINE	SPEC HOUSE PROGRAMME	FUNDING DEPENDENCY
38 stands	3 – 5 mo	2 units	Critical
Boutique residential estate	*Phased — funding-linked*	*Stand selection in Q2*	*Services installation rate*

KEY CHALLENGES & RISKS

Cash-flow dependency
Services installation timeline (3–5 months) directly linked to funding availability across all 38 stands.

Architectural rework risk
Plan corrections add time and cost to the SDP submission window.

Entrance road consolidation
Title transfer (not servitude) of 4m access strip from Rhyn is required; escalated commercial terms.

Rhyn's entrance situation
Current SDP requires relocation to the estate road — negotiation outcome pending.

Q2 2026 PRIORITIES

MAY	Rhyn land payment	*50% entrance road consolidation*
MAY	Site commencement	*Ryno on-site; materials ordered*
Q2	Services rollout	*3–5 month programme to begin*
Q2	Spec houses	*Stand selection · 3D renders*
Q2	Gus stand transfer	*Transfer once AGP plot approved*

Q2 Priorities & Way Forward

The momentum from Q1 is real. Q2 turns that platform into execution.

Q2 PRIORITIES & WAY FORWARD

The Path From Foundation to Execution

Three time-sensitive levers will materially shape group income and development trajectory.

Greens Boutique Estate

EXECUTION

Move swiftly on site commencement — Rein entrance road payment and fencing approach. Services installation is cash-flow dependent. Spec house selection and layouts to advance commercial visibility.

JJP Medical PropCo

INCOME PROTECTION

Resolve MediFrail tenancy. Commission independent valuation and choose between renegotiation, sale, or repurposing. This is a primary income source — a decision must land within Q2.

Riviera Revamp

TIMELINE-CRITICAL

Approve funding and budget across all phases. Phase 1 must commence without delay. The two-month interior window is non-negotiable and depends on Phases 1 & 2 being completed on time.

These decisions are time-sensitive and will have a material impact on the group's income and development trajectory.

CLOSING STATEMENT

Commitment.

Operational discipline. Execution focus. Long-term value creation.

Q1 2026 was foundational. We formalised structure, migrated banking, centralised systems, and cleared planning prerequisites that unlock development. Q2 turns this platform into execution — entrance roads, services, environmental approvals, refurbishments and capital-protecting decisions on income assets.

"I remain committed to driving progress across all entities and look forward to discussing this report with the team."
