

Demo Zoning Certificate and Scheme Extract

Example of a municipal/zoning file a developer may upload to the Data Room. Contains useful structured rules mixed with narrative notes.

1. Property Identification

Municipality	George Municipality - Planning Directorate
Property	Erf 1421, Demo Greens Estate, George, Western Cape
Registered owner	Demo Property Holdings (Pty) Ltd
Erf extent	624 m2
Current land use	Vacant residential stand
Zoning category	Single Residential Zone I with Estate Overlay

2. Development Parameters

Rule	Permitted / Required	AI extraction target
Maximum coverage	50% of erf area. For Erf 1421 this equals 312 m2 building footprint.	max_coverage_percent = 50
Floor area ratio	0.75 maximum FAR. Approx. total floor area cap: 468 m2.	far = 0.75
Height	8.5 m above natural ground level, measured to top of roof ridge/parapet.	max_height_m = 8.5
Street building line	4.5 m from road boundary unless estate SDP states stricter control.	street_setback_m = 4.5
Side building line	2.0 m from side boundaries; relaxation possible only with approval.	side_setback_m = 2.0
Rear building line	3.0 m from rear boundary.	rear_setback_m = 3.0
Parking	Minimum 2 on-site bays per dwelling. Garage may count if accessible.	min_parking_bays = 2

3. Special Notes and Conditions

- The site is subject to a 2.0 m municipal services servitude along the south-western boundary. No permanent building may be placed within the servitude without written approval.
- A site development plan must indicate driveway position, finished floor level, stormwater discharge point, water tank position, and refuse collection area.
- Western facade glazing should be limited or shaded due to heat gain exposure. This is an advisory sustainability note, not a legal condition.
- Where slope exceeds 1:8, retaining walls higher than 1.2 m require additional engineering input.
- This certificate does not replace title deed conditions, estate design guidelines, or building plan approval.

Schedule A - Extract from Local Development Rules

This page imitates the larger zoning scheme by-law / town-planning scheme extract.

Residential estate stands must be designed to protect street character, privacy between neighboring erven, and adequate on-site parking. Building placement should account for natural ground levels and avoid unnecessary retaining. A single dwelling house is a primary right within this zone. A second dwelling, home occupation, or guest accommodation may require consent use approval.

Land use	Primary right	Consent use	Notes
Dwelling house	Yes	No	One main dwelling per erf.
Second dwelling	No	Yes	Subject to parking and services capacity.
Home office	Limited	May be required	Max 25% of floor area; no signage without approval.
Guest accommodation	No	Yes	Traffic and parking impact assessment may be required.

OCR difficulty note: Some real files will be scanned, skewed, or use old formatting. The AI workflow should keep page references and confidence scores for extracted rules.
